Current
Status

The Mud Lake Complex is comprised of 15 wildfires caused by lightning strikes in the Big Cypress National Preserve located in Southwest Florida, near Naples. (During the complex, 5 smaller fires were absorbed by larger fires. The larger fire names are used to describe all combined fires. See table below for more information.) The acreage burned has not increased. In total, 35,321 acres of various Preserve habitats have burned. Containment is now 75 %. Crews continue active containment on the northeast side of the Square Fire. Aerial observations continue over Ellison Fire and other hot spots. Lightning strikes produced two new fires, Wilson Cypress and Baxter Camp Fire however, these fires are not considered part of the Mud Lake Complex on Monday. Initial attack support was provided by the Mud Lake incident crews.

Planned
Events

Wildland firefighter crews will monitor and mop-up hot spots along the Square Fire perimeter and improve northeast corner containment lines. Crews will monitor the Ellison Fire's northern perimeter and unburned areas near the fire's southern edge. Aerial support will continue to monitor all other fires and assist in suppression as necessary. Additionally, crews will continue to use minimum impact suppression tactics to protect wilderness values and lessen impacts on endangered species.

Fire	Est. acreage as of 6.2.15	Start Date	Smaller fire(s) absorbed
Ellison	23,709	May 8	Mist

Ellipse	215	May 10	--
Square	11,375	May 10	Circle, Triangle, Dot 1, Dot 2
Pekel	1.5	May 17	--
68	2.5	May 18	--
Blue Bird	0.5	May 21	--
Sanctuary	1.5	May 22	--
Hobo	5	May 24	--
Buggy	5	May 24	--
Nobles	6	May 24	--
Personnel	243		

Equipment 4 helicopters (1 large, 2 medium, 1 small), 5 wildland fire engines, 4 fixed-wing aircraft

Cooperators National Park Service, U.S. Forest Service, U.S. Fish & Wildlife Service, Florida Panther National Wildlife Refuge, Florida Forest Service, Seminole Tribe of Florida, Florida Highway Patrol, Collier County (Florida) Office of Emergency Management.

Restrictions and Closures A temporary flight restriction (TFR) is in effect (http://tfr.faa.gov/save_pages/detail_5_6469.html). Access to lands managed by Big Cypress National Preserve south of Interstate 75, from mile marker 59 to mile marker 75 (Turner River Road), south to Upper Wagon Wheel Road is temporarily restricted as well. The closure also extends to lands administered by Big Cypress National Preserve north of Interstate 75, from mile marker 59 to mile marker 70, north to the Big Cypress Preserve Boundary. These areas will be closed to provide public and firefighter safety in areas of high fire activity. The closure restricts access to all recreational use including Off-Road Vehicles (ORV), hiking, and camping and includes portions of the Florida National Scenic Trail from mile 12, traveling north to the northern boundary of Big Cypress National Preserve.

Fire Weather Prevailing winds will be southeast today with the sea breeze causing afternoon and early evening thunderstorms. Cloud cover will keep temperatures cooler in the 85-88 degree range. Relative humidity will be 40-50%. Even with scattered rain, fuels remain dry, especially on the east side of the Preserve.
